

SHARLU EP GEAR LUBE

SAE Viscosity Grade: 90, 140

Sharlu EP Gear Lube is an automotive gear oil made from solvent refined base stock and mild EP, defoamant and pour point depressant additive. It is suitable for automotive manual transmissions, drive axles, final drive of passenger cars, light and heavy trucks.

Main Benefits

- Superior protection against wear.
- Superior thermal and oxidation stability at elevated temperatures.
- Excellent protection against rust and corrosion.

Sharlu EP Gear Lube meets and exceeds API Performance Level **GL-4**.

Typical Characteristics

SAE Grade	S. Gravity ASTM D-4052 @ 60/60 °F	K. Viscosity, cSt ASTM D-445		Visc. Index ASTM D-2270	TAN ASTM D-974 mg KOH/g	Flash Point ASTM D-92 COC, °C	Pour Point ASTM D-97 °C
		40 °C	100 °C				
90	0.8960	173.22	16.12	95	0.68	226	-18
140	0.9032	355.24	25.70	95	0.68	240	-15
80W/90	0.8959	145.14	14.50	98	0.68	220	-27
85W/140	0.9040	354.96	25.62	95	0.68	236	-18
