Flying Star Chart for the Year 2015

## DISARMING the NEGATIVE STARS

As a defensive strategy, the first step is to identify all the negative stars that bring bad luck and misfortune and then weaken them using the suggested Feng Shui cures.

### 1) The Catastrophic, Bad Five Yellow in the West (五黄灾星 + 三煞)

One should be very familiar with flying star 5 五黄灾星 (some masters called it five yellow direct translation omg), basically it represents any bad things that you could possibly imagine e.g. cancer, poison, surgery, accidents etc. This star affects the Male head of household more. This year “5” lands in the West Sector. The harmful effects is reduce because West sector is “Metal element” which is the cure to dilute the harmful effects of disaster 5. If you are a non-believer of feng shui, this is one cure that you have to do every year! It gets extremely hazardous

if your home west sector is within one of the three critical areas mentioned. The cure is simple you need any 6 units of “Metal” element OR any metal e.g. bronze/copper that produces sound e.g. coins, keys, bell, musical box OR salt water (feng shui master clients can get this formula from me). Sometimes water is used in dire situations.

**2) The Illness 2 in the SouthEast (二黑病符)**

The other is flying star 2 二黑病符 as the name suggest any form of persistence illnesses at home. This Star is particular bad for Female head of household follow by children. Similar cure with the above the use of 6 units of “Metal” object + Water (in some situations).

**3) The Hostile, Quarrelsome, Disharmony 3 in the Center (禄存星 小人星, 口舌是非)**

Quarrelsome flying star 3 invites gossip, back-stabbing, divorce and sow discord in your family relationships It may even lead to “lawsuits” and scandal. The feng shui cure is simple just put something “pink” in the centre. However one have to check your [House Feng Shui Destiny](#) sometimes “metal” element is use to control the flying star 3.

**4) The Robbery, Imprisonment, Fire Hazard, Financial Loss, Lawsuit Star 7 in the South (七赤星 破军)**

Some feng shui master regard this star as windfall wealth star which is incorrect. In Period 8 this is an obsolete star. The cure for flying star is “7” in the South sector, this can solve easily with a glass of water. There is a high chance of fire hazard because 7 先天卦 innate gua is “fire” element and south sector itself is also “fire” element.

## **ENHANCING the AUSPICIOUS STARS**

Enhancing the lucky stars maximize your potential for getting the best out of the year! In the same way as how negative stars affect you, these auspicious Flying stars bring out the best in you if your bedroom, entrance, living room, animal palace or bagua location is here!

### **1) The Wealth Star 8 in the North (八白 左輔星 旺財、功名、富貴、順利)**

If you desperately need an overdue promotion, consider activating the North Sector! In period 8 this is the most powerful wealth sector. Obviously the best way to activate this sector is you e.g. your working area. If impossible you can use salt lamp, any porcelain, ceramic, jade objects something that moves will be ideal. You can even use a fish tank. Keep this sector clean, bright and uncluttered; your entire year wealth generation depends upon here.

### **2) The Technical Skill, Authority, Relocation & Migration Star 6 in the NorthEast (六白 武曲星 武貴, 權力 動態 驛馬)**

Activation of Flying star 6 is particularly beneficial for those professions that utilise Technical skills e.g. engineers, plumber, electricians OR Military positions e.g. police, army, naval OR professions demands a lot of travelling e.g. regional marketing director. Jazzing up this sector improves your authority and control over your staff. You can energise this star by using any earth or metal objects e.g. clear or yellow crystal sphere. Please do not buy amethyst caves.

### **3) The Victory East Star (一白 貪狼 水星 桃花 人緣) Peach Blossom Star, Popularity, Network.**

For those occupations or businesses e.g. Sales personnel, marketing, Public Relations, Celebrities, feng shui masters, where interactions with customers or fans are important for their career success, East sector is one to look out for. All you need is to place a *water-growing plant or flowers* in this area. Even rose with thorns are OK, don't believe that flowers with thorns are bad. *However for married couples and occupations* that does not require you to have close rapport with customers you can avoid extramarital affairs by placing 8 white rounded pebbles or 8 pieces of any clay/ceramic/earth objects.

#### 4) The Education Star 4 in the NorthWest (四绿 文曲星 or 文昌星)

Most parents are probably familiar with this flying star 4 to activate for their children's education. This star not only helps kids academic pursue but it does provide mental clarity to all occupants at home. So you have kids in schools or you may want to vitalise this star and the method is relatively simple just have *4 stalk of bamboo in a water vase*. It does not matter whether the bamboo is straight or spiral. No need to go and pay a bomb to buy feng shui pagoda LOL. Remember i mentioned earlier "living things" works better than "non-living items; i guess the rationale is very obvious to you.
